

LEIPA Square Delta (matt coated with volume)

Image motif: White house by the lake / Artist: Monika Brachmann

LEIPA Square Delta is the special picture printing paper from the sustainable LEIPA Circology Edition: thanks to its increased volume and modern matt finish, **Delta** offers a unique visual and tactile experience.

Delta also opens up the possibility of reducing grammage and thus conserving resources thanks to lower logistics and postage costs - without any loss of opacity, feel or quality. On the contrary. With grammages ranging from 60 to 170 g/m², **Delta** covers a wide range of applications. From inside to cover.

Printing process:

Good to know:

LEIPA Square Delta impresses with its look and feel and sets sustainable standards. The image printing paper based on 100% recycled fibres with the best printability and printability. With **LEIPA Square Delta**, designers have a sustainable alternative at their disposal that offers impressive and tactile print results with a very special touch. And at the same time an ideal potential for the right storytelling - on paper and beyond. In line with the circular economy concept, all papers in the LEIPA Square series fulfil the highest standards for sustainable, contemporary paper and environmentally friendly production.
