

LEIPA Square River (glossy coated)

Image motif: Houses on the lake with headland / Artist: Monika Brachmann

LEIPA Square River is the shiny component of our sustainable LEIPA Square photo printing papers. The ideal choice for all decision-makers, designers and paper lovers who demand high print quality for photos and graphics and at the same time want to set an example for sustainability. Equipped with a glossy surface, **River** impresses with brilliant colours, sharp contrasts and a smooth surface print. Whether inside or cover: with grammages ranging from 70 to 165 g/m², **River** offers convincing solutions for a wide variety of applications and print jobs.

Printing process:

Good to know:

LEIPA Square River, because the eye reads too. Give your product that special lustre. No compromises thanks to the best processing and printability, all on a 100% recycled fibre basis.

In keeping with the circular economy concept, all papers in the LEIPA Square series fulfil the highest standards for sustainable and contemporary paper as well as environmentally friendly production.

- » Brochures

The special added value for even more sustainability:

With the additional **care** and **care+** options, you can make more in-depth statements in terms of responsibility and sustainability. From the Blue Angel to the use of 100% electricity from renewable sources and a financial climate contribution (in Gold Standard projects) with ClimatePartner.

Certified sustainability:
