

LEIPA Square Valley (Picture print - matt coated)

Image motif: Three yellow fields / Artist: Monika Brachmann

LEIPA Square Valley is the ideal starting point for all decision-makers, designers and paper lovers who have high demands on quality and ecological awareness and want to set an example for sustainability. Equipped with a contemporary matt finish, **Valley** enables modern and elegant-looking prints - even in smaller print runs. With grammages of 60, 70, 80 and 90 g/m², several basis weights are available. With 60 and 70 g/m² in particular, we are supporting the market trend towards lighter paper products.

Printing process:

Good to know:

LEIPA Square Valley:

The high-performance picture printing paper based on 100% recycled fibres. This sustainable alternative scores with its outstanding visual and tactile properties. In keeping with the circular economy concept, all papers in the LEIPA Square series fulfil the highest standards for sustainable, contemporary paper and environmentally friendly production.

- » Catalogues
- » Annual reports
- » Flyers & advertising
- » Instructions
- » Books & periodicals
- » Infopost
- » Brochures

The special added value for even more sustainability:

With the additional **care** and **care+** options, you can make more in-depth statements in terms of responsibility and sustainability. From the Blue Angel to the use of 100% electricity from renewable sources and a financial climate contribution (in Gold Standard projects) with ClimatePartner.

Certified sustainability:
